Updating Company Files Using Internet Updating through WinFlex6: (Note: If you do not have WinFlex6 or the "Base" load of the product, please load WinFlex6 using the **SPA Software Download** instructions below.)

1. Open WinFlex6
2. Select "Options" from the tool bar list
3. Select "Check for Internet Updates"
4. Now you will receive a window that will display all companies that you have loaded on your desktop for WinFlex6. Confirm that you have each product checked for Internet updating. (Those in the white shaded section have updates, those in the gray shaded section do not require an update at this time).
5. Click Download
6. If there are any files that have been downloaded, you will receive a message stating that company updates are complete. However, if there are no updates at this time, you will receive a message stating that there are no updates available at this time
7. If you would like to Launch WinFlex6 choose <Yes> now

Sales Professional Access (SPA) Software Download:

Simply go to <http://www.mutualofomaha.com>

1. Click on "Agents and Brokers"
2. Select the Sales Professional Access Sign In link. This will take you to the login screen.
3. Enter your User ID and Password.
4. Select Update Winflex
5. Click on Download Now" Under step 1: Download WinFlex 6
6. Then follow steps 2 and 3

Note: Internet Updating is not a tool offered through SPA. It is offered as a function through LifeLink Corporation (the WinFlex6 Company).

Please contact the Field Assistance Center at 800-847-9785 with any questions regarding software updates or downloads.

If you have other questions, please contact your Sales Director or Sales Support at 800-693-6083 or sales.support@mutualofomaha.com.
